

Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Sunday 12 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Cloudy in the west but drier and brighter further east.

Today:

A cloudy start in the west, with fog in prone locations, but brighter further east. Cloud then builds further through the day, bringing the odd outbreak of rain, with eastern areas seeing the best of any warm and sunny spells. Maximum temperature 21 deg C (70 deg F).

Tonight:

Remaining cloudy overnight in the west, with the occasional clearer spell further east. Staying dry for most but with the odd outbreak of rain, heavy in places, for northwestern areas. Minimum temperature 14 deg C (57 deg F).

Monday:

A dry start, before rain moves into western areas through the morning and then spreads northeastwards through the day, heavy in places. Easternmost areas staying largely dry with sunny spells. Maximum temperature 19 deg C (66 deg F).

Outlook for Tuesday to Thursday:

A wet start Tuesday, with rain and showers, possibly thundery, before becoming drier later. Drier and brighter Wednesday and Thursday, with the odd isolated shower; feeling warm in any sun.
